# INTRODUCTION TO CORKSY

The Corksy ecosystem combines NFT technology with real-world utilities, creating a unique blend of digital ownership and tangible benefits for community members.

# NFT SYMBOL UTILITY & TOKEN REWARD STRATEGY

Each Corksy NFT features one of over 11 unique symbols embedded into its design. These symbols are not aesthetic only — they unlock real benefits and interaction within the Corksy ecosystem.

## SYMBOL UTILITY CATEGORIES

## **SYMBOL MECHANICS**

- Symbols are revealed on mint or via a delayed animation.
- Each symbol is tracked in the app.
- Some symbols may **combine** for advanced utilities or multiplier effects.
- Symbols are included in **Bottle Clues** (hidden in posters, merch, and ebooks).

## **TOKEN REWARDS SYSTEM**

- NFTs and activities (like scanning a QR code or solving a clue) reward users in \$CORKSY.
- Symbol-based reward tiers are issued monthly.
- Merch, ebook, or sticker buyers receive bonus \$CORKSY for verified community actions.

### **Ecosystem Feedback Loop:**

50% of net profits from all NFT sales (after tax) are used to buy and burn \$CORKSY, reducing supply and increasing scarcity.

## **SYMBOL-ENHANCED COMIC NFTS**

Starting with the **Uncorked Tuscany** series, each comic NFT will include one of Corksy's 11 symbols in its metadata. These symbols unlock layered utilities including:

- Lottery access
- VIP tier rewards
- Token airdrops
- Merch discounts
- Exclusive wine access (via CorksyCellars)

This creates consistent utility across character NFTs, comics, and future mini-games.

# EBOOK STRATEGY & INTERACTIVE UTILITY

Corksy ebooks are designed as marketing tools, storybuilding formats, and engagement weapons — all in one. They are short, graphic-heavy, and reward-packed.

## UPDATED EBOOK CONCEPT (JULY 2025)

Every Corksy comic story is republished as a matching 5–6 page digital ebook, paired with 2–3 pages of bonus utilities: • QR codes linked to token rewards or merch drops • Symbol-based bonuses (e.g., double lottery, wine tier) • Sneak peeks, puzzle challenges, or exclusive partner links • Integrated with the Corksy App for live reward tracking

After 10–15 stories, a hardcover collector edition will be published, featuring exclusive utilities only available in print format (symbol fusion, early mint passes, etc.)

This creates a connected system between NFTs → eBooks → symbols → merch → app utilities, all fully trackable.

### Ecosystem Feedback Loop:

50% of net profits from ebook sales (after tax and platform fees) are used to buy and burn \$CORKSY tokens.

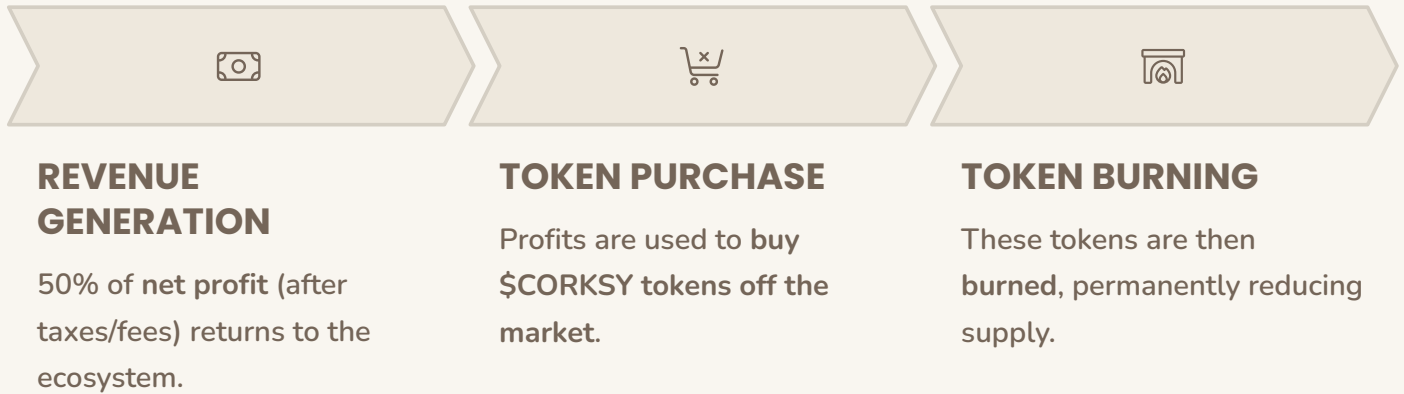

## EBOOK UTILITY

- QR scan links to NFT claim, token airdrops, or free merch codes.
- Special editions unlock Discord/Telegram roles.
- Collectible editions tie into gamification.
- Readers who solve puzzles are eligible for **Corksy Champion** rewards.

# SUMMARY OF ECOSYSTEM REINVESTMENT

For every revenue-generating Corksy product line, the same financial principle applies:

## REINJECTION & BURN STRATEGY

## APPLIES TO:

-  **NFT SALES**
-  **MERCHANDISE PROFITS**
-  **EBOOK ROYALTIES**
-  **IN-APP PURCHASES**
-  **CAMPAIGN REWARDS**

This approach ensures a deflationary token model while stimulating user participation, brand storytelling, and long-term value for holders.
